Frontend Assessment

Recreate the provided design using:
• HTML
• CSS
• JavaScript
• Bootstrap

Requirements
• Match the design layout as closely as possible
• Use Bootstrap's grid system and components
• Make the page fully responsive (desktop, tablet, mobile)
• Add basic JavaScript interactivity (e.g., menu toggle, modal, simple validation)
• Keep code clean and well organized
• Clicking on the Foundation Membership or Economy Membership should reveal or hide the descriptions

Submission
Share a public Git repository link with clear, descriptive commits showing your progress.
